📄 SUMMARY

Front-end development knowledge from both industry and academics are my strong suits. I want to grow as a Fullstack Web Developer throughout the coming years. To do that, I'm brushing up on contemporary JavaScript, React, NodeJs, DBMS, Python, Github, and MongoDB.

✏️ PROJECTS

Portfolio Website / Nov 2022

My Portfolio project
My front-end thoughts, projects, etc. are intended to be displayed on my portfolio website.

`HTML5` `CSS3` `JavaScript` `Netlify`

Weather App

A weather forecasting Web Application
A web application that uses an API to search for and dynamically display weather information for a certain area.

`HTML5` `CSS3` `JavaScript` `Netlify` `OpenWeatherAPI`

Netfilx Clone / Nov-2022 - Dec-2022

Netflix Clone using API
A full-fledged front-end project, it aims to teach students how to integrate back-end systems using APIs as well as gain a solid understanding of front-end concepts.

`HTML5` `CSS3` `JavaScript` `ReactJs` `Vite` `TypeScript`

Placeopedia / Mar-2022 - May-2022

Placement and Training Cell - As a final year project
Web application for placement and training was finished as a group effort in the final year with four people.

`HTML5` `CSS3` `JavaScript` `Python` `Django` `Bootstrap` `DBSqlite`

📋 SKILLS

Languages: HTML,CSS,JavaScript,Bootstrap,Python

Familiar: Django,Tailwindcss,Sass,Ajax,Figma,Solidity,DSA

Other: Github,Netlify,NodeJs,MongoDB,Heroku,Oracle

🎓 EDUCATION

MSc. Informatics / 2020 - 2022

University of Delhi- South Campus,New Delhi,IN
I completed my postgraduation from **Institute of Informatics and Communication,** University of Delhi in the year 2022.
